Re: ICVB Planners Guide 2002

I just wanted to congratulate both of you on the first Convention Guide issue.

I think the Guide is well put together and will certainly help put Istanbul on the Convention and Incentive Map. It took a long time to get there, but with both of your perseverance at least we can show some fruits of ICVB work.

It was a pleasure working with you and I wish you continued success.

We are leaving with good memories of Turkey and look forward to come back for a visit.
